

Dear Recruiter,

I am writing to express my sincere interest in the position related to Data Science and Machine Learning at your company. With a solid foundation in Python and extensive hands-on experience in data science, particularly in machine learning, NLP, and time series analysis, I am eager to contribute to your innovative projects and initiatives.

My background as a Junior Data Scientist at Cloudcraftz Solutions Pvt Ltd has equipped me with a diverse skill set and a proven track record of success. In my current role, I have spearheaded projects ranging from commodity price change prediction to sentiment analysis for stock price prediction, utilizing advanced techniques and tools such as Hugging Face Transformers and PyTorch. Additionally, I am currently engaged in a project related to forecasting commodity prices, leveraging historical price and news data with ML Classification Algorithms and Large Language Models (LLM).

One of my proudest achievements is my personal project, "Crafting Efficient Large Language Models with Precision and Flavor," where I designed and implemented a robust training pipeline for LLMs. By incorporating quantization and LORA techniques, I was able to optimize model size while maintaining performance, demonstrating my commitment to stay at par with the boundaries of technology.

My proficiency in programming languages, data science, and AI/ML, coupled with my skills in Python libraries and MLOps tools, positions me as a candidate capable of driving innovation and actionable results. Moreover, my commitment to continuous learning is evident in my pursuit of enhancing software engineering skills, aiming to bridge the gap between data science and development.

I am confident that my technical skills, coupled with my effective communication and presentation abilities, make me a valuable asset to your organization. I am excited about the opportunity to contribute to your team and would welcome the chance to discuss how my experiences align with the goals and vision of your organization.

Thank you for considering my application. I am eager to discuss how my background, skills, and passion for data science can contribute to the success of your company. I am available at your earliest convenience for an interview and can be reached at +91-8902690755 or via email at adityadawn98@gmail.com.

Warm regards,

Aditya Dawn
